TEMPORARY CROWN CARE TIPS

Taking care of your temporary crown is vital in ensuring your permanent crown fits at your next visit!

- 1.) TRY TO AVOID HEAVY CHEWING ON YOUR TEMPORARY
- 2.) NO GUM, CARAMEL OR STICKY FOODS.
- 3.) BRUSH GENTLY, DO NOT FLOSS YOUR TEMPORARY
- 4.) AVOID ICE COLD OR HOT TEMPERATURES ON THE TEMPORARY CROWN.
- 5.) IF THE TEMPORARY COMES OFF, APPLY POLIGRIP DENTURE GLUE OR DENTEMP ON THE INSIDE OF THE CROWN TO HOLD IT IN PLACE, THEN CALL THE OFFICE.

It is normal to be sensitive to hot, cold and chewing for several days. You may need take aspirin or Tylenol following the procedure.

GOLDEN RULE: If your temporary crown comes off, DO NOT go several days with it off because the permanent crown may not fit & there may be additional lab charges to re-do the crown.
